EASTERN
West Virginia Community & Technical College

- **2 Year Degree Program**
- **Certificate Program**

AUTOMOTIVE TECHNOLOGY PROGRAM

Learn skills to work in car dealerships, independent repair facilities, automotive suppliers, distributorship, and sales.

Overview

Successful completion of the Automotive Technology program will allow graduates to enter the workforce at the technician level, prepared to apply the knowledge and skills developed in lectures and laboratories to diagnose, troubleshoot and repair today's complex vehicles.

Highlights

- Learn And Earn Program - Allows second year students to take part in a paid internship.
- Eastern has articulation agreement with area high school tech centers to offer courses that will count, up to nine credit hours!
- Zspace technology that provides augmented reality based learning, as well as industry leading tools, equipment, and a hybrid learning environment!
