

• 75-hour training program

# WELDING TRAINING PROGRAM

## Fire Up Your Opportunities and Your Earnings!

### Overview

Eastern's Welding program combines practical hands-on training and education to prepare you for the AWC Equivalency Exam, and so you can enter the field in an entry-level welding career, or the program can serve as the foundation for advanced welding training. Small class sizes and flexible class schedules for those students who want to continue to work while attending school. Numerous resources, partners, tools and training opportunities are available to assist you with employment, and up to \$2,000 in funds to pay tuition is available for those who qualify!

### Work as a Welder in Industries like:

- Agriculture
- Manufacturing
- Mining
- Specialty Trade Contractors
- Commercial Construction
- Repair and Maintenance.
