This and That – Tips for Success

Below is a mixture of definitions and general information which we believe will help you be more successful and make your experience more valuable.

CATALOG

This publication contains requirements for graduation, degree programs and course descriptions. It also contains other information about the history and mission of the school, and various programs or services. You should become very familiar with your college catalog. For example, when you declare a program of study (major), you will follow the requirements listed in the catalog the year you begin taking classes toward the completion of the major you have selected. The catalog contains a wealth of information that will guide you successfully through your academic career and can be accessed on Eastern's website at www.eastern.wvnet.edu.

IMPORTANT INFORMATION AND DATES YOU SHOULD KNOW

Most of these dates can be found on the Academic Calendar in the front of this booklet; for others, you will need to check directly with the specific offices involved i.e. Financial Aid or with Learner Support Services. If you are not sure about a date, always take the time to check as it could impact your academic record or your pocket book.

- registration dates and times
- last day to register without paying a late fee
- last day to pay for pre-registered courses
- last day to withdraw from classes
- scholarships and academic awards available and deadlines to apply

SEMESTER HOURS

During a regular semester (15 weeks), one credit is equal to approximately one hour of class time per week (i.e., a three credit course will require spending approximately three hours per week in class for one semester). This equation is different for laboratory classes and classes that meet for fewer than fifteen weeks.

<u>SEMESTER/TERMS</u>	<u>LENGTH</u>	<u>FULL-TIME</u>	<u>PART-TIME</u>
August – December	15 weeks	12 hrs or more	11 hrs or less
January – May	15 weeks	12 hrs or more	11 hrs or less

Generally, in the summer term full time is 12 or more credit hours; however, credit hours required for full-time and part-time status are different for financial aid students in summer. Contact the Financial Aid Office for information.

STUDY HOURS

As a general rule, plan to spend two to three hours studying for each hour you spend in class per week e.g., three hours spent in class per week plus six hours study time equals nine hours total time for each 3 credit class.

PREREQUISITE/COREQUISITE

Prerequisite – a course that must be taken before another course

Co-requisite – a course that must be taken at the same time as another course

Pre/co-requisite – a course that may be taken either before the desired course or during the same semester

EXPECTATIONS FOR CLASS ATTENDANCE & PARTICIPATION

Once a student completes a course registration form with their advisor and provides his/her signature, it is mutually understood that the student is intending on completing the course(s) listed. Successful course completion requires attendance and participation in classroom activities as these are critical components in a college learning environment. Research shows that class attendance and participation are strongly related to academic performance. While Faculty establish their own attendance policies for each class, as outlined on the course syllabus, students are responsible for resolving attendance issues with the course instructor before, or as soon as possible after, absence occurs.

EXPECTATIONS OF STUDENTS RECEIVING FINANCIAL AID

Financial aid awards are determined by enrollment status (the number of credit hours for which the student is registered). If the student drops classes before the aid funds are disbursed/delivered, the financial aid award will be reduced to the amount that corresponds to the current number of credit hours he/she holds. The student is responsible for any charges that incur as a result of enrollment change.

Students should be aware that changes in enrollment status may affect eligibility to receive assistance in future semesters. Students considering withdrawing from classes are encouraged to seek financial aid counseling as well as academic advising before dropping classes.

COURSE ADD/DROP PROCEDURE

If you have already registered for classes you may make schedule adjustments by using add/drop forms available through your advisor. These forms must be completed, signed by your advisor, and returned to Learner Support Services for processing. You will receive a copy of all processed add/drop slips which you should retain as a personal record of your schedule changes. Please refer to the refund schedule found in the class schedule for any possible tuition refunds and refer any refund questions to the Business Office.

If you find it necessary to withdraw from a class you should remember the following:

- Use the add/drop forms and complete them before the last day to withdraw found in the academic calendar. Final drop dates for courses that do not meet a full semester are available through your advisor.
- If you stop attending class but do not officially withdraw, you WILL receive a failing grade.
- Failing grades can affect future financial aid eligibility and grade point averages.
- Before dropping a class, please discuss your decision with your instructor, advisor, and the financial aid office if applicable.

Financial Aid

Financial Aid consists of scholarships, grants, loans, and employment opportunities (Work Study) to help students finance a postsecondary education. Students may apply for these various types of financial aid by contacting Eastern's financial aid office. Students must meet Standards of Progress, page 57 to remain eligible.

Eastern Students enrolling in courses at other colleges or universities as a transient (temporarily attending another college) student, with a completed consortium agreement, are responsible for paying all tuition and fees to consortium institution. The consortium agreement makes sure that only one school considered your home school is handling your financial aid because it is against Federal rules to receive financial aid from more than one institution for the same semester.

Federal Pell Grant

The Federal Pell Grant program provides the "foundation" of financial aid to which other grants, loans or assistance may be added. If the student qualifies for a Federal Pell Grant, he/she may receive between \$606 and \$5920 annually (award amounts are subject to change), depending on family income, costs of education, and enrollment status. Those applying for Federal Pell Grant must complete a Free Application for Federal Student Aid (FAFSA) or FAFSA renewal application. Electronic signage is completed with FSA ID (Federal Student Aid ID) and password instead of the previously used PIN. Students must reapply for a Federal Pell Grant every year. A Pell grant year includes Fall, Spring, and Summer semesters.

West Virginia Higher Education Grant (WVHEG)

The West Virginia Higher Education Grant (WVHEG) is a state funded grant for eligible students who are residents of the State of West Virginia. Students apply by submitting the Free Application for Federal Student Aid (FAFSA). FAFSA applications completed by April 15 are given priority consideration. Full-time attendance is required and a cumulative grade point average of 2.0 is required of all filers. WVHEG renewal requires that 12 or more credit hours be earned for each semester the WVHEG was received or your eligibility for renewal of the WVHEG will be suspended until the those credit hours are earned.

Direct Loan Program

The Direct Loan Program (DLP) is a set of federal student loan programs that includes the Federal Stafford Loan (subsidized and unsubsidized) and the Federal PLUS (parent loan) programs. The source of funds for the Direct Loan Program is the United States Department of Education (Department). The DLP is administered by the Department and requires that the student have only one point of contact for the servicing of the loan, the Direct Loan Servicing Center. Students interested in obtaining a Federal Stafford Loan (subsidized or unsubsidized) or a Federal PLUS Loan, must complete the online Master Promissory Note and online Entrance Counseling. The Entrance Counseling is required to ensure that you understand the responsibilities and obligations that you are assuming. Contact the financial aid office for more details about this process.

Eligible students may borrow up to the maximum amount of subsidized loan, depending on year in school and the loan limits established for the Direct Loan Program (\$3500 loan for the first year of undergraduate study and \$4500 for the second year of undergraduate study). The loan amounts may be awarded as a combination of subsidized and unsubsidized Federal Stafford Loan. Students are responsible for the interest accruing on unsubsidized portions while in school and during any grace or in-school deferment periods, unless the student elects to have the interest added to the unsubsidized loan principal (capitalization). Having the interest capitalized will mean larger payments upon repayment. Independent students (or dependent students whose parents are unable to borrow a Federal PLUS Loan) may borrow additional amounts under the unsubsidized Stafford Loan Program, as follows, \$4000 per year for the first and second years of undergraduate study. Federal Stafford Loans have an origination fee of 1.066 percent that will be deducted from the loan amount. The fee is subject to change. The interest rate for all DLP loans is 3.76% through June 30, 2017, at that time the rate is subject to change. The interest rate for subsidized and unsubsidized loans after July 1, 2017 is 4.45%. Loan principal and interest payments begin six months after the student graduates or ceases to be enrolled at least half-time. Repayment must be completed according to the repayment plan selected.

The Federal PLUS program allows parents of dependent undergraduates to borrow federal loan money to help pay the cost of their son's or daughter's college expenses. Eligible parents may borrow amounts not to exceed the difference between the student's cost of attendance and all other financial aid he or she will receive. The Federal PLUS Loan interest rate is 7% from July 1, 2017 through July 1, 2018, but is subject to change after that time. The PLUS Loan fee is 4.264% on or after October 1, 2017 through October 1, 2018 and is subject to change afterwards. The repayment period for PLUS Loans begins on the day the loan is disbursed and ends according to the repayment plan.

**** FEDERAL STUDENT LOANS MUST BE REPAID****

Eligibility

To be considered for financial aid at Eastern West Virginia Community & Technical College, a student must:

- be admitted to the College
- be a citizen or eligible non-citizen
- be registered with Selective Service (if required)
- have a high school diploma or GED®
- be working toward a degree or certificate
- apply for financial aid by completing an online FAFSA
- be making satisfactory academic progress
- have an academic transcript on file for every college or postsecondary institution attended
- not owe a refund on a Federal grant or be in default on a Federal education loan and
- have financial need (except for unsubsidized Stafford Loans and/or non-needs based scholarships).
- if FAFSA is selected for verification, then verification must be completed

Application Process

The FAFSA is the principal application document, and the information that the student provides serves as the basis for determining eligibility for the federal student aid programs. Follow these steps to complete the Financial Aid Application Process:

- be admitted to the College
- visit <https://studentaid.ed.gov> which has current information concerning Preparing for College, Types of Aid, Who gets Aid, FAFSA information and Links, and Student Loans details
- obtain the Free Application for Federal Student Aid (FAFSA) by visiting www.fafsa.ed.gov This must be processed to be eligible for Title IV aid
- contact the financial aid office if any questions arise.

FAFSAs are available only on the website or by contacting FAFSA for a paper form.

Timeline for Applying

For best results, students should apply for financial aid early. Starting October 1, 2017 the 18/19 FAFSA will be available using the 2016 Tax and income information. For campus based aid programs and other programs with limited money available, students should apply before April 15 for full consideration. Those with greatest need are considered first. As funds become available, late applicants are considered ranked by need. If your FAFSA is selected for verification a 2016 tax return transcript or use of the IRS Data Retrieval within the FAFSA may be required. A verification worksheet must be completed and other documentation may be required which may extend the period of time required for processing.

Notification

After the financial aid office determines a student's eligibility for financial aid these steps are followed:

- 1. When the financial aid office reviews applications, the student is notified of any problems or any verification requirements (verification documents must be submitted within 30 days).**
- 2. An award letter is emailed**
- 3. Recipients will be emailed about any adjustments to financial aid award**

Satisfactory Academic Progress

Generally, to remain eligible for financial aid, a student must meet satisfactory academic standards. Full-time students must register for a minimum of 12 credit hours and complete at least 67 percent of the attempted credit hours each semester. The Department of Education has a satisfactory academic progress policy which states that an undergraduate student must complete his or her program in a period of time no longer than 150% of the school's published program length. In addition to the above, Eastern's institutional policy requires that a student maintain a minimum grade point average of 2.0 in all coursework. Contact the financial aid office for specific requirements.

Liability for Repayment of Award

A student receiving financial aid who earns no credits during a semester and who does not officially withdraw from the College may be billed for a percentage of the aid disbursed for that semester. Students receiving financial aid who officially withdraw from the College may be billed for a portion of the aid received. The amount of repayment will vary based upon the amount of aid received and date of withdrawal.

Students should be aware that changes in enrollment status may affect eligibility to receive assistance in future semesters. Students considering withdrawing from classes are encouraged to seek financial aid counseling as well as academic advising before dropping classes.

Financial aid awards are determined by enrollment status. If the student drops classes before the aid funds are disbursed/ delivered, the financial aid award will be reduced to a value corresponding to the enrolled hours at the time the funds are disbursed. The student is responsible for any charges that incur as a result in enrollment change.

STANDARDS OF PROGRESS FOR FEDERAL FINANCIAL AID RECIPIENTS POLICY
EFFECTIVE JULY 1, 2011
Revised May 23, 2016

Purpose

In addition to all other requirements for federal financial aid eligibility, students must continue to be in good academic standing and be making progress toward a degree.

The standards that are set forth here are stricter than the institution's standards of progress. Therefore, a student who does not meet the Standards of Progress for federal financial aid may be unable to receive financial assistance, but will be able to continue to attend Eastern.

 - i. Allowable: Repeated coursework may be included when determining enrollment status in a term-based program if a student needs to meet an academic standard for a particular previously passed course, such as a minimum grade.
 - ii. Not permissible: A student enrolls in four classes in the fall semester and passes only three of them; the institution requires the student to retake the failed class and also the other three classes because of failing the one class. When the student repeats all four classes in the spring semester, the failed class would be included in the student's enrollment status, but the three classes passed would not be.

2. Pace of progression will be reviewed at the end of each semester.

The calculation is as follows:

$$\text{Pace Rate (Completion)} = \text{Total EARNED Credit Hours} \div \text{Total ATTEMPTED Credit Hours}$$

NOTE: The first time a student is not meeting the above SAP requirements, the student is placed on Financial Aid Warning. After one warning, if a student does not meet SAP again, they are not eligible for financial aid unless they submit an appeal with a degree evaluation and it is approved. If approved, the student is placed on Financial Aid Probation (and will have to complete an academic plan). If denied, the student will have to pay for classes on their OWN until meeting SAP requirements again. (see appeal form for additional guidelines)

****Institutional Standards of Academic Progress is separate and will have its own requirements and notifications.**

C. Program Completion

- 1. Students are given 150% of the hours required for graduation in their particular program for completion.**
- 2. All courses taken will be included in this calculation.**
 - a. All courses transferred from other institutions will be included in this completion ratio calculation.**
 - b. Courses for which an incomplete is received will be included as attempted, but unearned hours.**
 - c. Courses from which a student withdraws during a semester will be included as attempted, but unearned hours.**
 - d. A student is eligible to receive Financial Aid for one repeat when repeating a previously passed course to obtain a higher grade.**
 - i Allowable: Repeated coursework may be included when determining enrollment status in a term-based program if a student needs to meet an academic standard for a particular previously passed course, such as a minimum grade.**
 - ii Not permissible: A student enrolls in four classes in the fall semester and passes only three of them; if the institution requires the student to retake the failed class and also the other three classes because of failing the one class. When the student repeats all four classes in the spring semester, the failed class would be included in the student's enrollment status, but the three classes passed would not be.**
- 3. Dual Degree Students: As long as each of the programs the student is completing is a Title IV-eligible program, the student may receive Title IV aid for each program. If the student completes the degree requirements of both programs at the same time, the student can receive aid from all of the Title IV programs until completion. However, if the student completes requirements for graduation for one program then the student is no longer eligible to receive Title IV Funds for that program.**
 - a. If the student is enrolled in both degree programs then the FA Office will check the total number of hours needed for the combined programs and make certain that the student has not exceeded 150% for the combined hours in both programs. The FA Office will make certain that the student is not counted twice for any courses, such as English, that may be required for both programs.**

- b. **Dual degrees must be listed in the student record prior to the beginning of the semester. Both programs should be listed in the College's Student System under SGASTDN. The student must complete a change of information form to add and/or change programs.**
- c. **Students may only receive aid for hours that pertain to the dual degrees, as listed in their student record.**

AA/AS/AAS Degree Programs: Total credit hours required are 60, the maximum time frame is 90 attempted hours (60 x 150%)

Certificate (CP) Programs: Total credit hours required are 30, the maximum time frame is 45 attempted hours (30 x 150%)

Students receiving financial aid will be reviewed at the end of each semester for the 150% rule, and notified by the Financial Aid Office if they are exceeded or will exceed the maximum time frame to complete their program. An appeal and degree evaluation is required to continue receiving financial aid. (This is different than the appeal for SAP requirements for A and B above)

If an appeal is required, students must complete the following:

1. **Review Degree Evaluation for required classes still needed to complete their degree/certificate.**
2. **Review degree evaluation with advisor to pick (at minimum) the next semester of classes (submitted on the financial aid academic plan worksheet).**
3. **Submit the completed financial aid SAP appeal form (if required also) and academic plan worksheet, with a copy of the degree evaluation, to the financial aid office before the beginning of the semester.**
4. **If a student has met all requirements to receive a degree in his or her stated major, the student must apply for graduation. Change of major is not an option. Refusal to graduate in the intended major will result in financial aid suspension.**
5. **Students who have exceeded maximum hours are limited to 2 major changes. Students are permitted to change majors at any time; however, this may result in financial aid suspension.**

Students and their advisors will then be notified through their EASTERN e-mail of their academic plan decision and any credit hour/course limitations with the decisions.

D. Status of Non-Compliance

1. Warning Status

- a. **Warning status may be granted to students with extenuating circumstances (i.e.: A student who was forced to withdraw due to an accident or illness. Appropriate documentation must be provided.).**

2. Probation Status

- a. **Probation status is granted to students who have successfully appealed. Students can receive aid during their probationary period after signing and submitting a financial aid appeal Contract to the Financial Aid Office.**

3. Suspension Status

- a. **Students are placed on financial aid suspension status after one semester. Students on suspension cannot receive Financial Aid. Students will be removed from Financial Aid suspension and/or probation when in compliance with the GPA and Hours Passed rules. Students cannot exceed the maximum hours allowed.**

E. **Deadlines for Appeals**

Students planning to appeal should appeal as soon as they are notified of their financial aid probation/suspension. Tuition and fees are due by the specified date set by the Business Office each term. In order to avoid difficulties involved in late payment of tuition and fees, students should submit the appeal promptly and observe the deadline dates. For an appeal to have meaning, the appeal must be granted in time to allow the student's award to be processed before grades are released for that semester. In addition, student loans cannot be processed after October 25th for the Fall semester and March 25th for Spring semester. Federal regulations require that once the standing of student is known, then the award must reflect that information. Thus, a student granted an appeal before the end of the semester and awarded after the end of the semester may become ineligible for the award by the time the award is granted. Financial aid appeals cannot be retroactive.

Financial Aid SAP Appeals may be approved or denied—Decision by the SAP committee is final.

Additional Rule: *Developmental Courses: A maximum of 15 hours of developmental courses can be attempted under financial aid.

The Office of Learner Support Services mission is to eliminate disability discrimination and ensure equal educational opportunity for students who qualify as a person with a disability under the applicable laws (ADA, section 504). We work closely with students to determine reasonable accommodations that will minimize the disadvantage their disability may cause. Many students who were under an Individualized Education Plan (IEP) or a 504 Plan during high school may qualify for services, as will many other students who might have received any specialized services during their K-12 education. However, we require an adult evaluation and cannot implement accommodations based on your IEP.

It is the student's responsibility to contact our office and provide appropriate documentation of their disability that might interfere with their educational pursuit. Approved accommodations are determined on an individual basis. Any requirement an instructor demonstrates as essential to any directly related licensing requirements or to a program of instruction pursued by a student with a disability cannot be altered.

Eastern West Virginia Community and Technical College is committed to:

- (a) Ensuring the provision of services necessary to enable students with disabilities to achieve their maximum potential as members of the College Community;**

- (d) Promoting a positive image of persons with disabilities.**

The goals of Disability Services are:

- 1. To coordinate and provide reasonable accommodations and disability related services;**

6. Makeup-Testing

Occasionally, students may not be able to take a test at the scheduled time. Make-up testing is given due to special circumstances. In the event a student misses a test, exam or quiz, it is the STUDENT'S responsibility to contact the instructor and arrange to complete the test/quiz. However, make-up testing is not a privileged and is at the instructor's discretion. Each instructor outlines his/her make-up testing policy on the course syllabus.

In the event a make-up test cannot be arranged between the instructor and the student, Eastern provides limited test proctoring scheduled through the Academic Services Program Coordinator or designee. The following are general guidelines for scheduling a make-up test:

- Missing a test is a last option. The student should speak with the instructor before the test/quiz to make special arrangements.
- The student should provide documentation for missing a test or quiz, for example a doctor's excuse.
- The student should contact the instructor first.
- If the instructor and the student cannot work out a test time, see the Acad. Services Program Coordinator.
- Students must have an appointment. Walk-ins are not admitted. Make-up testing should be scheduled at least 2 days in advance.
- If the above times are not an option, then make-up testing will be scheduled with the Student Services Specialist.
- No make-up exams will be given after the last day of regular classes.
- No make-up exams will be given during finals week.

Counseling Department

Although we do not have a licensed counselor on staff, Monica Wilson, the Dean of Student Access and Success is available to assist students with personal difficulties, career decision- making, and educational planning.

Having Difficulty Choosing a Major?

1. Don't let someone else decide for you. Get advice. Think your decision through.
2. Base your decision on interest, ability, personality and values. Personal satisfaction is important.
3. Try to relate your major to a professional goal, but keep in mind many fields prefer individuals with broad preparation. Your major may not lead to a specific job.
4. Gain insight into possible careers by volunteering, job shadowing, or participating in an internship with a particular agency.

“Asking for help when you are struggling is a sign of strength”

– Demi Lovato.

Learn The Signs

The first step is recognizing there is some concern and then following up. In order to recognize the signs, you have to know what they are. In general, change in behavior or interaction is a sign there is something going on. Though all people do not exhibit the same signs, there are some common factors identified with increased risk. All signs are worth recognizing. Remember these signs by the acronym “IS PATH WARM.”

- » **Isolation** – Is your loved one pulling away from you? Have they withdrawn from social groups and activities?
- » **Substance Abuse** – Is your loved one experimenting with drugs and /or alcohol?
- » **Purposelessness** – Does your loved one think about and/or plan for the future?
- » **Anxiety** – Does your loved one seem nervous, worried, stressed?
- » **Trapped** – Is motivation poor? Does your loved one express statements that reflect feeling stuck or trapped?
- » **Hopelessness** – Is there promise? Is there consideration for the future and the rest yet to come?
- » **Withdrawal** – Is there a connection with you and your loved one? Does he/she connect with anyone?
- » **Anger** – Does he/she seem increasingly agitated or aggressive?
- » **Recklessness** – Is he/she engaging in risk-taking behaviors?
- » **Mood Changes** – Have there been unusual or dramatic changes in mood or behavior?

Distance Learning

Distance Education is a way of delivering instruction that allows the student and instructor to be separated by physical distance using technology to bridge the physical gap. This delivery system allows the College to provide you with many more course selections than if all classes were offered in the traditional setting. Distance Education offerings often provide flexibility and convenience that you may find will fill your educational needs. However, before you enroll in any distance education course, you need to understand what kind of delivery is involved and what will be expected of you as a student.

Below is some information designed to get you started in learning about Distance Education. Be sure to check out the self-evaluation in this section and no matter what always ask questions!!!

- **Definitions and Descriptions**
- **General Information**
- **Frequently Asked Questions**
- **Characteristics for Success**
- **Distance Learning Quick Facts**
- **Questions to Ask Yourself Before Enrolling in a Distance Education Course**

Definitions and Descriptions

1. Web Based Courses

Web Courses are available to students who have a computer with an Internet connection. You will receive instructional material via the Internet and communicate with your instructor and other students through e-mail and electronic bulletin boards.

If you are interested in taking a web course, you should be aware that certain skills are necessary to succeed in this mode of learning. As a policy, students must have successfully completed at least 10 credit hours of college coursework before enrolling in online courses. You should possess fundamental computer and academic competencies, including:

1. **Good reading and writing skills**
2. **Keyboarding skills**
3. **Word processing skills**
4. **Internet navigation skills**
5. **E-mail sending and receiving skills**
6. **Distance learning software skills (Web CT and Blackboard)**

2. Video Distance Learning Courses

The video distance courses provide “real-time” instruction. Using technology, you can see and hear your instructor at all times though you are located in different geographic locations. You can ask questions and your instructor can provide immediate feedback. The majority of these courses require fundamental skills such as e-mailing and discussion boards. If registering for one of these courses, students must attend a distance learning orientation session.

3. Web Conferencing Courses

Like video distance learning, web conferencing courses provide interactive “real-time” instruction in which you are able to hear the instructor at all times using speakers on your personal computer. Students are required to be online at pre-determined hours each week and must have a microphone to talk to the instructor and other students.

4. Blended Courses (Hybrid)

Blended courses use a combination of formats to deliver instruction to students. Blended classes may be a mix of web-based instruction (internet), face-to-face instruction, video distance learning and/or web conferencing. The Class Schedule will note if a class is a blended class and the percentage of instruction face-to-face and percentage of instruction through distance technology. Face-to-face meeting times will also be listed in the Class Schedule. Your advisor or the instructor can answer questions concerning a specific blended class.

5. Netiquette Guidelines

Online or distance learning classes often give students a sense of anonymity or make one feel less inhibited. The following guidelines are general rules for internet etiquette or “Netiquette”.

- Remember there is a person or people on the other end. Do not write anything you would not say to someone in person. Abusive or offensive posts will not be tolerated.**
- Assignments in online classes are just as important as assignments in face-to-face classes. It is important to use proper spelling, grammar and punctuation. Do not use text slag or lingo.**
- For online discussions, stay on topic. If you want to communicate with another student about personal issues or an issue not related to the topic, email or chat with individual separately or use the water cooler feature in Black Board.**
- Think before you write. Class discussions may be controversial. If a topic or post has provoked strong feelings, write your post and save it. Wait for an hour, read it again before you post it.**
- Word process assignments and discussion posts. Write assignments and discussion posts in Microsoft Word or a similar word processing software. Use the spell check and grammar check functions to proof read your assignment.**

General Information

- **You will find that most web based courses are NOT self-paced courses, you are expected to meet class/assignments due dates. Your instructor determines the design of the course (for example, whether you have to be logged on at a certain time for a live chat)**
- **You must have daily access to the website through your own computer, a computer lab terminal, or other outside terminals (libraries, work, access centers, etc.)**
- **You must have the required software for each course you are taking (some software must be downloaded from the Internet).**
- **You are responsible for checking the course website and email several times a week for updates.**
- **You are required to take an orientation course or training for entry into an online class.**
- **Distance education, especially web-based courses require a high degree of motivation and self-discipline on your part due to the lack of daily contact with the instructor.**

Frequently Asked Questions

1. Should I consider enrolling in a distance-learning course?

Distance learning courses require a high degree of commitment on your part. You need to be a self-motivated and independent learner. If you tend to wait until the last minute to finish assignments and readings, this type of learning is not recommended.

If the subject is one that you may have difficulty learning or dislike, it is not recommended that you take that class via the web.

2. What software and hardware do I need for web-based courses? Students must have a computer with independent internet connectivity (software requirements are dependent on the course format).

3. How do I gain access to the web-based class?

Students can gain access to their class only after they have been officially registered for that course. Students will be emailed their log-on information so it is important that email accounts be checked on a daily basis.

4. Can I gain access to these classes on campus?

Yes, students may use college computers to complete the assigned work for a distance learning class. Computers are available at each Discovery center throughout Eastern's service district. Check with your advisor for Discovery Center availability.

5. Where do I go for testing?

Your tests may be given online at a designated site or you may be required to take the test at the closest Discovery Center or the EASTERN main campus.

6. How does the instructor receive my work?

For Internet classes, your work will be submitted electronically (i.e. by email, electronic drop boxes, or message boards). Telecom course materials are generally mailed/or faxed to the instructor by a classroom facilitator. Your instructor will provide details for submission in your course syllabus.

Characteristics of Students who Succeed in Distance Learning:

- Highly motivated to achieve
- Independent learner
- Active learner
- Disciplined
- Adaptable to changes and new ways of doing things

Distance Learning Quick Facts:

A distance learner must be self-reliant. Self-reliance means:

- the ability to take responsibility for learning,
- knowing how to set goals and standards,
- knowing how to conduct library research,
- having initiative,
- having the ability to manage time, and
- having the ability and willingness to evaluate yourself and others critically.

Taking responsibility for your learning means that you make a conscious commitment to the learning task. Among other things, this includes:

- making the time necessary to study and following through with your schedule,
- understanding your weaknesses and taking action to strengthen them,
- asking for help or clarification when you need it,
- learning to say no to things that interfere with your goal,
- staying motivated,
- finding ways to meet needs that you cannot meet by yourself, and
- fostering an idea of yourself as an active learner, not a passive receiver, of knowledge.

**Questions to Ask Yourself before Enrolling in a
Distance Education Course:**

- **Are you self-motivated?**
- **Do you complete what you start?**
- **Are you able to work independently with little direction?**
- **Do you have self-discipline?**
- **Do you believe that learning is ultimately your responsibility?**
- **Do you have good reading and writing skills?**
- **Can you read books and easily comprehend what is being said?**
- **Are you comfortable using the Internet?**
- **Are you able to learn new computer skills and software that may be needed for a course?**
- **Are you able to easily express yourself in writing?**
- **Will you ask for help if needed or if a problem arises?**

**If you answered “yes” to all or most of the questions, you are probably
ready for a distance education course.**

Plagiarism

Avoiding Plagiarism...

A citation is simply a note telling the reader where you obtained the information you are presenting and giving credit to that source. Failing to credit another person for an idea that is not your own is called plagiarism.

Plagiarism is a serious offense.

Plagiarism is intentionally presenting the words or ideas of another as your own. It is a very serious offense and can result in a failing grade or dismissal from the program. To avoid plagiarism, simply include citations whenever required as outlined below:

- 1. Direct Quotations -- Every direct quotation must be identified by quotation marks or by appropriate indentation and must be promptly cited in a citation.**
- 2. Paraphrase -- Acknowledgement is required when material from another source is paraphrased or summarized in whole or in part in your own words. An example of correctly citing a paraphrase is, "To paraphrase Robertson's comment..." and conclude with a citation identifying the exact reference**
- 3. Borrowed Fact or Information -- Information obtained in your reading or research that is not common knowledge must be cited. Examples of common knowledge might be the names of leaders of prominent nations, basic scientific laws, etc. Materials that contribute only to a person's general understanding of a subject may be acknowledged in the bibliography and need not be cited in the text. One citation is usually sufficient to acknowledge indebtedness when a number of connected sentences in a paper draw their special information from one source. When direct quotations are used, quotation marks must be inserted and a citation must follow immediately. Similarly, when a passage is paraphrased, the same practice is followed.**

STUDENT RIGHTS AND RESPONSIBILITIES

(Code of Student Conduct)

Policy

The submission of an application for admission to the College represents an optional and voluntary decision on the part of the prospective student to partake of the program and privileges offered by the College pursuant to the policies, rules and regulations of the Board of Governors. Institutional approval of that application, in turn, represents the extension of a right or privilege to join the College community and to remain a part of it so long as the student fulfills the academic and the behavioral expectations that are set forth in the policies, rules and regulations of the Board of Governors.

Among student rights and responsibilities are the following:

- A. **Freedom of expression and assembly.** Students enjoy the essential freedoms of scholarship and inquiry central to all institutions of higher education. In exercising these freedoms students have particular rights and responsibilities, including but not limited to the following:
 1. To have access to campus resources and facilities;
 2. To espouse causes;
 3. To inquire, discuss, listen to and evaluate;
 4. To listen to any person through the invitation of organizations recognized by the College;
 5. To not violate the rights of others in matters of expression and assembly; and
 6. To abide by the policies, rules and regulations of the Board of Governors and federal, state and local laws pertaining to freedom of expression and assembly.
- B. **Freedom of association.** Students may organize whatever associations they deem desirable and are entitled to affiliate with any group or organization for which they meet membership qualifications. However, institutional recognition of student organizations shall be limited to those whose purposes comport with the educational mission of the College.
- C. **Right to privacy.** Students are entitled to the same safeguards of the rights and freedoms of citizenship as are afforded those outside the College Community, including but not limited to the following:
 1. Privileged one-to-one communication with faculty, administrators, counselors and other institutional functionaries;

2. **Respect for student property, including freedom from unreasonable and unauthorized searches;**
 3. **Confidentiality of academic and disciplinary records as outlined by the Family Education Rights and Privacy Act (FERPA);**
 4. **Assurance that legitimate evaluations will be made from student records.**
- D. Responsibilities of citizenship. Students are expected, as are all citizens, to obey local, state and federal statutes. As members of the College community, students also are expected to obey the College's code of conduct.**
- E. Right to due process. Disciplinary proceedings for students accused of committing offenses must be consistent with such constitutional provisions guaranteeing due process of law as are applicable to the proceedings. In all disciplinary proceedings, students shall be considered innocent until proven guilty of any charge.**

Background or Exclusions

- A. Any authority, responsibility or duty granted to or imposed upon the President by this policy may be delegated by the President, subject to the control of the Board of Governors, to a member or members of the instructional and learner support staff or student body of the college. All persons concerned in a matter involving the delegation of authority, responsibility, or duty by the President shall be required to deal with the person or persons to whom the authority, responsibility, or duty was delegated, except on appeal to the President as specified by the President.**
- B. The President, with the advice of the staff and students who are subject to the control of the Board of Governors, shall develop, promulgate and use disciplinary regulations and channels not inconsistent with this policy.**
- C. The President possesses the discretion to impose sanctions following disciplinary proceedings. Depending on the violation, such proceedings may result in expulsion, suspension, probation or some other appropriate sanction of lesser severity.**
- D. Normally, a student facing suspension or expulsion from the college will be entitled to a hearing and, in certain cases, appeal prior to the imposition of the sanction. However, a student may be temporarily suspended pending final action on the charges when the student's continued presence at the College would constitute a potential for serious harm to self or to the safety of other members of the College community or when the student repeatedly causes serious disruptions of College activities. Such temporary suspension shall be followed by prompt disciplinary proceedings consistent with this policy.**

- E. Because of time lapse during an appeal process, sanction enforcement in the affected semester may be impossible. In that event, the following actions may occur:**
- 1. Whenever possible and if appropriate, the sanction shall be applied to the semester in progress at the time of the completion of the appeal.**
 - 2. If the sanction cannot be implemented during that semester, then it shall be applied during the next regular semester.**
 - 3. If the student has completed the course of study during the pendency of the appeal, the sanctions, where possible, shall be carried out retroactively to affect the records of that student during the semester designated in the original sanction.**
 - 4. In any event, the student may not be graduated during the process of appeal.**
- F. Students who commit off-campus violations of local, state or federal laws may be subject to discipline under this policy if it is established that there is a connection between the off-campus conduct and the safe and orderly operations of the College.**
- G. A sanction of suspension or expulsion for disciplinary (not academic) reasons imposed by any public college or university in West Virginia shall apply to the person sanctioned not only at the institution where the sanction was imposed, but shall also be effective at the College. Some programs require of students a minimum of "C" in each class taken before they will be allowed to graduate with a degree/certificate in that program area.
3. The following systems of grades are used by the Eastern West Virginia Community & Technical College:

Grade	Description	Quality Points
A	Superior	4 per semester
B	Good	3 per semester
C	Average	2 per semester

The grade point average is computed for all courses for which a student has registered with the exception of courses with grades of “W”, “I”, “CR”, “NC”, “AU” or courses repeated (See “D and F” rule). The grade point average is the ratio of the number of quality points gained to the number of credit hours attempted. To compute the overall grade point average, add all quality points and divide by the number of hours attempted. Courses in which grades of “W”, “I”, “NC”, or “AU” have been given are omitted from the computation. Please note: Grades of “F” and “UF” are calculated in the computation of the grade point average. For more information see pages

STUDENT GRIEVANCE PROCEDURE

Purpose

Students have the right to appeal final course grades which they believe reflect an error in calculation, recording or report; capricious, arbitrary, or prejudiced academic evaluation; or reflect discrimination based on race, sex, age, handicap, veteran status, religion or creed, sexual orientation, color, or national origin. The grade appealed shall remain in effect until the appeal procedure is completed or the problem resolved.

Procedure

Step 1

The student shall discuss the grade with the instructor involved no later than ten (10) college working days after the start of the subsequent school term not including summer sessions, whether the student is enrolled or not. If the two parties are unable to resolve the matter satisfactorily, or if the instructor is not available, or if the nature of the complaint makes discussion with the instructor inappropriate, the student shall notify the academic program director of the instructor's area. The academic program director shall assume the role of an informal facilitator and assist in their resolution attempts. If the problem is not resolved within 15 college working days from when the complaint is first lodged, the student may proceed directly to step 2.

Step 2

The student must prepare and sign a document which states the facts constituting the basis for the appeal within 15 college working days from when the original complaint was lodged. Copies of this document will be given to the instructor and to the instructor's program director. If, within 10 college working days of receipt of the student's signed document the program director does not resolve the problem to the satisfaction of the student, the student will forward the complaint to the Dean of Teaching and Learning. (See step 3).

Step 3

Within 15 college working days of receipt of the complaint, the Dean of Teaching and Learning will establish an Ad Hoc representative committee for review and final resolution. This committee will consist of a minimum of three members including a representative of Academic Services, a representative of Learner Support and at least one faculty representative. Additional committee members may be appointed at the discretion of the Dean of Teaching and Learning.

- 1. Upon receiving an appeal, the committee will notify in writing the faculty members involved of the grade challenge, which shall include a statement of the facts and evidence to be presented by the student.**

- 2. The committee shall provide to the faculty member involved and the student making the appeal written notification of their right to appear at a hearing to be held before the department, college, or school representative committee, together with the notification of the date, time and place of the meeting.**
- 3. The administrative procedure is not adversarial in nature; the formal rules of evidence do not apply.**
- 4. The final decision of this committee will be forwarded to the student, instructor, the Academic Program Director and to the Dean of Teaching and Learning involved. If the decision requires a change of grade, the instructor will take action in accordance with the committee's decision.**
- 5. If the instructor does not act within 10 college working days, the Academic Program Director will make any necessary grade adjustment.**
- 6. In the case of grade appeals, the Dean of Teaching and Learning functions as the president's designee, therefore, implementation of this decision will end the appeal procedure.**

Health Risks

Substance abuse and drug dependence are problems of staggering proportions in our society today. They are the leading causes of preventable illness, disability, and death in the U.S. and are estimated to afflict 25.5 million Americans. While alcoholism may develop in anyone, it tends to first appear between the ages of 20 and 40 and is more prevalent in persons with a family history of alcoholism. This number increases dramatically when one considers the harm done to the families of substance abusers as well as those injured or killed by intoxicated drivers or in drug related work accidents. Alcohol abuse is often characterized by one of three different patterns: (1) regular and daily use, (2) drinking large amounts of alcohol at specific or irregular intervals, or (3) periods of sobriety interspersed by periods of heavy drinking. The disorder is progressive, and can be fatal. If you recognize any tendencies toward alcohol abuse, please seek help as outlined below. Health risks of other drugs include:

Narcotics (including opium, morphine, codeine, heroin, and other) – Physical addiction, loss of awareness, respiratory restriction and possible death.

Depressants (including barbiturates, Quaaludes, and others) – Slurred speech, disorientation, shallow respiration, coma likely with overdose.

Stimulants (including cocaine, amphetamines, and others) – Increased heart rate and blood pressure, possible leading to death, increased excitation, loss of appetite.

Hallucinogens (including LSD, “mushrooms”, PCP, mescaline, and others) – Illusions and hallucinations, poor perceptions of time and distance, psychotic and unpredictable behavior, often leading to injury and arrest. Symptoms may reappear some time after use.

Cannabis (marijuana, hashish, THC, and others) – Unrealistic euphoria, diminished inhibitions, disoriented behavior, diminished motivation, increased pulse.

Assistance and information concerning substance abuse and its treatment may be obtained from the counselor’s office at the college campus. Also available to employees, students, and others are services from the following agencies:

5. Take the suicidal student to an area away from others.
6. Notify the Dean of Access and Student Success immediately. If the Dean of Access and Student Success is not available, the Student Services Specialist, or designee, should be contacted immediately.

Student Success

The student success rate is used to evaluate the success of all students who seek a certificate or degree. The success rate is calculated by following a cohort of first-time freshman, both full- and part-time, for six years. Students are measured as being successful if they achieved one of the following benchmarks: certificate, associate's degree, or transfer to a four-year institution without earning a certificate or associate's degree. This measure is more appropriate for tracking students in two-year institutions because it accounts for the high percentage of students who enroll part-time. It also provides students with intermittent enrollment patterns as a result of work and family obligations, or who need extra time to complete developmental education, enough time to achieve a successful outcome.

Student Success Rate

Institution	2004	2005	2006	2007	2008	2009
Eastern WV Community and Technical College	15.6%	17.6%	21.7%	22.0%	35.1%	26.5%

Retention Rate

This indicator provides the proportion of students from the previous fall's cohort of first-time, full- and part-time freshmen who returned in the fall of the indicated year to any institution in the state's public system. This is a change from the measure used in previous Report Cards which only assessed the retention rates of full-time students. Further, retention is measured at end-of-term rather than at census as in previous years. Students were included whether or not they were degree or certificate seeking. This first-year retention is an important milestone on the way to completion of a degree or certificate.

One-Year Retention Rates

Institution	2010	2011	2012	2013	2014
Eastern WV Community and Technical College	55.0%	62.4%	59.5%	50.0%	50.0%

Career-Technical Certificate Program Completers

This indicator provides the number of students completing certificate programs that are designed to prepare students to enter directly into employment in a specific career and meet the workforce needs of local employers. The certificate programs require at least 30 credit hours of which six credit hours must be in general education.

Number of Career-Technical Certificate Graduates

Institution	2011	2012	2013	2014	2015	% Change 2011-2015
Eastern WV Community and Technical College	16	37	47	65	61	281.3%

Career-Technical Associate's Program Completers

This indicator provides the number of students who completed associate's degree programs in career-technical fields each academic year. Associate's degrees require a minimum of 60 credit hours and indicate that the student has completed a program of academic development and has achieved a level of performance reflected in student learning outcomes sufficient to progress to upper division collegiate work or to enter directly into specific occupations in the workforce.

Number of Career-Technical Associate's Program Graduates

Institution	2011	2012	2013	2014	2015	% Change 2011-2015

Eastern WV Community and Technical College	43	41	66	77	58	34.9%
--	----	----	----	----	----	-------

Graduation Rates

This indicator provides the proportion of associate’s degree-and certificate degree-seeking students, full- and part-time, who earned any award within six years at any institution in the system. Rates are provided for students’ institution of origin. Six-year rates are reported because measuring certificate and associate’s degree graduation rates within a three-year period fails to take into account the non-traditional (e.g., non-continuous or part-time) enrollment of many community and technical college students.

Six-Year Graduation Rate of Associate/Certificate-Seeking Students

Institution	2004	2005	2006	2007	2008	2009
Eastern WV Community and Technical College	15.0%	13.3%	38.1%	22.2%	23.3%	20.3%
