

## Allied Health Care

ONETonline.org SOC Code: 31-9099.00

Certificate in Applied Science

30 Semester Hours<sup>^</sup>

This program is designed for the students interested in entering a health care profession. Graduates are better prepared for entry-level health care related employment or entry into the nursing program. All courses must be completed with a grade of “C” or better.

Upon successful completion of this certificate, the graduate will be able to:

- Apply basic computation skills related to allied health careers
- Appreciate the person as a holistic being for the purpose of fostering growth and development across the lifespan
- Discuss health related issues
- Demonstrate effective communication skills and computational skills

Program implementation: Full-time day
